

DETAILED ACTION

Notice to Applicant

This communication is in response to the continued examination request with amendments received on 06/18/2009. Claims 92-106 are allowed.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raymond Y. Chan on 9/4/2009.

During the interview conducted on 9/4/2009 between the Examiner and the attorney on the record, Mr. Chan, the application has been amended as follow:

Please amend claim 92 as follows:

At line 16-17 please amend: "...said service provider sends said respective registered user a treatment page which ~~may includes~~ a list of said health problems and diseases that said registered user suffers,..."

At line 33-34 please amend: "...and control said treatment of said registered user ~~when with~~ said treatment instrument is an analog type treatment instrument; and..."

At line 38-39 please amend: "communicatively connecting a second treatment instrument with said information connection system, wherein said second treatment

instrument further includes at least one addition treatment option as an additional treatment for said registered user apart from said audio and visual treatment.”

Allowable Subject Matter

Claims 92-106 are allowed. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of these claims is the inclusion of the limitations, in all of the claims which is not found in the prior art references, of communicating a treatment request to said information connection system on the basis of said diagnosis record of said registered users through said Internet, ..., wherein in responsive to said treatment request of said registered user, said service provider sends said respective registered user a treatment page which may include a list of said health problems and diseases that said registered user suffers, treatment opinions from doctors, recommendation of beneficial foods and activities for each of said listed health problems and diseases of said registered user, recommended biological treatments with respect to said listed health problems and diseases that said registered user suffers respectively, and information of suggested treatment instrument for executing each recommended biological treatment; based on said treatment request and said health information profile for said registered user, formulating a treatment information data package from a treatment information database provided by said service provider; commanding said computer to perform treatment by digital treatment signals based on said treatment information data package, wherein said treatment is initiated and operated by said information connection system on said registered user, wherein said

treatment is selected from a group consisting of an audio and visual treatment to said registered user via said audio device and said monitor respectively.

The prior art teach:

Virtual Doctor Interactive Cybernet System, US 20020065682 A1, Goldenberg;

Patient monitor and support system, US 5558638 A, Evers;

Digital signal decoder using concatenated codes, US 5416804 A, Khaled et al.;

Treatment of peripheral vascular disease, leg cramps and injuries using needles and electrical stimulation, US 6522929 B2, Swing;

Generator of electromagnetic waves for medical use, US 20030023129 A1, Bologna.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DILEK B. COBANOGU whose telephone number is (571)272-8295. The examiner can normally be reached on 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher L. Gilligan can be reached on 571-272-6770. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
